HEAR THE LEADERS

R. T. Hon. Arthur Meighen, premier of Canada, is to address a public meeting in the Arena in Medicine Hat on Friday evening, August 13th. No because of any political party, but because he is premier of Canada, the Arena should be filled to capacity to hear Mr. Meighen. Citizens of Medicine Hat should take advantage of this opportunity to hear and see the prime minister. If Mr. King should visit the neighboring city, he also should be heard by as many as possible from here. We would particularly remind school pupils, especially those who are studying Canadian history and all in the higher grade to take advantage of these opportunities to hear and see the men about whom they will be studying after the holidays. There is no doubt they will hear something which might possibly be of assistance to them in future examinations. To know and have to see those about whom pupils are studying will make history more interesting and real. Parents should see that their children take advantage of these opportunities.

PROGRESSIVE APATHY

If we are to judge from the sentiments expressed by several farmers at the U.F.A. convention in Medicine Hat last Monday, and the poor attendance of delegates as compared with other conventions, it is quite evident that U.F.A. members in this constituency are not so enthusiastic in dominion political elections as they once were. Considerable apathy was shown at the convention on all sides and it was evidently only after much missionary work on the part of the few more enthusiastic that it was finally decided to put a candidate in the field. No doubt the rank and file of the U.F.A. have been reading something of the speeches made by U.F.A. members of parliament who have only recently returned from Ottawa. As a result they are, no doubt, very much befuddled as to whom to believe and just what to do.

It is only natural, therefore that there are these signs of apathy on the part of U.F.A. members throughout the West in matters pertaining to Dominion politics. In provincial affairs it is different and one only has to come in contact with farmers in this constituency to find out that they are much better posted in both provincial and dominion affairs than they are given credit for being. In provincial affairs they are staunch supporters of the present government at Edmonton. They realize the U.F.A. group was very much handicapped during their first term in office because of the condition in which they found the country when assuming office, and while they have no excuse to offer for past achievements, they are looking forward to even better results in the next five years.

In dominion affairs it is different. Farmers are beginning to realize that conditions have not been as they should have been at Ottawa during the past ten or eleven months and that as a result they, in keeping with all other branches of business activities, have suffered. Farmers are realizing now as never

before that the tariff bogey is a falsehood which does not deliver its usefulness as a means of catching votes. Mr. Lucas, U.F.A. member for Camrose, emphasized this fact when in his nomination speech last week he gave figures to show that the average tariff in the last three years had been higher under Liberal rule than under the previous administration. He also said in effect that the only difference between the two old parties in this connection is that one comes out in plain language, in season and out of season, and says what it proposes doing while the other is "weafled" by every wind of doctrine, and nobody knows just exactly what it is going to do next. In the language of the street the farmers are fed up on this sort of thing and the best of it is they are being supplied with the food by their own members of parliament who are now giving some inside information as to what really did happen at Ottawa since last October. It is this food for thought which is awakening farmers to the realization of the truth of Mackenzie King's repeated statements on the hustings last October when he said: "No government could carry on successfully without a clear majority over all groups," and a large percentage of them are going to do their part in helping to give Mr. Meighen that necessary majority. Farmers are aided in arriving at the conclusion because of the insults hurled at Progressive members and workers by Mackenzie King last October when he branded them as a band of outlaws who had spent their force and were standing in the way of the interests of the West and helping to make the West ridiculous.

During the past week some very narrow escapes from serious injury have been reported as a result of loose or broken planks in the sidewalks around town. Owing to the financial condition of the town and the fact that our Council has been practically dictated to by the Public Utilities Commission for the past few years, our sidewalks have deteriorated very considerably and are now in a dangerous condition in many places. It is just possible that in the long run this may prove false and expensive economy. A few bad accidents for which the town would be held responsible, might easily involve the town in the outlay of enough money to build several blocks of sidewalk.

Last Monday's Calgary Alberta editorially criticizes Mr. Lucas, U.F.A. member for Camrose, for very openly denouncing the tactics of Mackenzie King in his efforts to secure Progressive support in the last parliament. The Alberta believes Mr. Gardiner, U.F.A. member for Acadia, was much more discreet in his summing up of the situation at Ottawa. Reporting Mr. Gardiner's speech when accepting the nomination, the Alberta reports him as saying, "The speaker (Mr. Gardiner) admitted that Mr. Meighen appeared to have a better grasp upon the legislative requirements of the country than Mr. King, but as one Progressive put it, 'he had better co-operate with the Liberal leader because we can put more over him.' If this is the Alberta's idea of expressing oneself more discreetly, we wonder what Mr. King thinks of it."

Ever since the dominion election last October we have been told repeatedly by Mackenzie King and other Liberal leaders that the Liberal party had no dealings with Progressive members in an attempt to gain their support in the house. The truth, however, is now beginning to leak out and the Progressive members are appling the beans.

Mr. Lucas, M.P. for Camrose, says Mr. King asked the Progressives what they wanted in exchange for their support while Mr. Meighen told them what the conservatives would do. Mr. Gardiner, another U.F.A. M.P., says Mr. King also extended an invitation to Progressives to select two of their members for cabinet positions and that they could have had their pick of all but two portfolios. "All together in the chorus: 'Well if dat ain't dickern' sh-d-ay, I know; way down yonder on the Ottawa.'"

Some of the smaller trees on Fifth Street are beginning to show the effects of the long spell of dry hot weather. Citizens in front of whose houses these trees are, should turn the hose on them occasionally and keep them alive, it would be a shame to lose them for want of a little attention.

It is now quite evident that the Customs scandal is the real issue of this election. Except when Mr. King speaks, we never hear anything about the constitutionality of the disquisition.

Bear Hunting In Rockies Best In Spring

In the Big Bend district of the Upper Columbia River in British Columbia lies the largest tract of grizzly bear hunting territory in the Dominion. On the two hundred mile stretch between Beavermouth and Revelstoke, both on the main line of the Canadian Pacific Railway, there are approximately thirty creeks, some large enough to be classed as rivers. Of these at least twelve are known to be the habitat of the grizzly while many of them have not heard the sound of a rifle in years.

This spring a systematic effort was made to place the hunting possibilities of this great district within the reach of prospective visitors in search of the thrill which only close quarters with Grizzly Horribles can produce. Through the co-operation of all the best known hunters on the Upper Columbia, trips can be made to satisfy the desire of the most searching mountaineer. At low water such as exists up to about the end of May it is possible to run in safety such well known waters as Ravine, Gimshash, Gordon, Pines and Bush Rapids as well as the headwaters of the Upper Columbia itself. The trip appears as easy as a fly as the actual hunting.

Upper—A couple of hunters with some of their game. Lower left—On the way back. Lower right—Beaver Canyon, near Beavermouth, B.C.

As far as is known, no party of mountaineers has ever made such a trip. The last party of local hunters, who spent twenty-one days in route, brought in a bag of over-fifty bears, including several very large grizzlies and three live grizzly cubs. This happened several years ago when the present bag limit of three bears per sportsman was not in effect.

THE REDCLIFF REVIEW

WORLD HAPPENINGS
BRIEFLY TOLD

The third biennial convention of the World's Federation of Education Societies will meet in Toronto, Aug. 2 to 10, 1927.

Premier Taschereau, of Quebec, declared there will be no provincial elections this time this year. "The people of Quebec have enough to consider and vote already," he remarked.

Plans of British cabinet members are to be sent to British assize reports, where the pictures of Premier Baldwin, Foreign Secretary Chamberlain and others will be offered at programme features.

Professional misanthropes of Hamilton, who establish themselves on the downtown streets and seek alms by playing various instruments or selling small wares are to be ordered off the streets by the chief of police.

Hon. W. G. O'Rourke, Quebec, under secretary of state for the dominions, stated that he is in favour of no change being made to the arrangements for the imperial conference owing to the situation in Canada.

Arnaldo Mussolini, brother of Italy's premier, has challenged General Bertrando to a duel. The challenge follows criticism of the premier by the general, who is a well-known leader of the opposition to the Fascist Government, on an article written by the premier's brother.

Less than one per cent. of the vote tested in the tuberculosis free area, which is being established in Saskatchewan in the Lake Superior district, have reacted to the test on, and Hon. C. M. Hamilton, minister of agriculture for the province, is highly gratified at the splendid showing of the nation in this territory.

The minimum demand for agricultural machinery in Canada for the next year is estimated at 120,000 million pre-war rubles, according to a statement in the Berlin Times of the Commercial Intelligence Journal. Three large steamships operated by the United American Line, the Bremen, the Baltimore and Cleveland, have been sold to the Hamburg American line in exchange for a Spanish liner in the German company.

Russians To Colonize Wrangel

Have Renamed This, Barents Wasie As Lenin Island

A Russian expedition to the Arctic in the Arctic, North Siberia, and to some in Lenin Island.

The expedition, in a Russian icebreaker, the Krasnaya Zvezda (Red Star) was scheduled to leave last Cape Siberia, on the west side of Bering Strait, June 25 for the island, of Wrangel, to establish a colony of Nikolai Lenin, commander of the Russian Revolution.

To Wrangel Island, for whose exploration and colonization has 28 years in three expeditions has been based in 12 years. The Russian expedition was taking 20 families of Chukchis (Siberian Eskimos) 100 dogs, and 20 sledges. Equipment of the colony includes 100 sledges, 100 sledges, 100 sledges, and six large Eskimo skin boats. Fourteen on the Red October for Lenin Island were scheduled to last three years. These families with the survey of Wrangel Island (or Lenin Island) promises to be successful. This because of cold, unremovable, absence of fuel and extreme scarcity of food.

Royalty Engages in Business

Russian Court Women Made With Success in Commerce

The manner in which ladies of the Russian court have fitted themselves into the life of commerce in Paris is a matter of much comment in the French press.

The Grand Duchess Marie went to work as an ordinary woman in a French embroidery house to learn the secrets of her commerce in her own place. In another dressmaking establishment, Princess Oleskovich is the cashier and bookkeeper in Paris is troubled in the general handling of the cutting room and Miss Andreeff has charge of fittings.

New Settlers Settled in Alberta More than 500 families have been located in Alberta in the last year and the 2,000-family scheme, provided to H. W. Wood, of the land settlement board. Mr. Wood states that the new settlers are doing splendidly and are well satisfied with their present conditions and their prospects.

The average man lives five and a half days a week through illness between the ages of twenty and thirty; twenty days between the ages of fifty and sixty.

French War Debt

British-France Agreement is Wide in Scope

An agreement was signed recently for the funding of the French war debt to Great Britain after a conference between Winston Churchill, chancellor of the British exchequer, and Joseph C. Clifton, French minister of finance, and a subsequent discussion with treasury officials to draft the terms of the agreement.

The settlement covers not only the French war debt, but virtually all the outstanding accounts between Great Britain and France.

Announcement of this effect was made in the House of Commons by Mr. Hon. Winston Churchill, chancellor of the exchequer.

The French payments, he said, would be £4,000,000, £5,000,000, £6,000,000 and £10,000,000, rising to £12,500,000 annually, the last named figure being reached in 1935.

From 1929 to 1935, the payment would be £12,500,000 annually, rising to £14,000,000 for the next 21 years.

Mr. Churchill expressed himself as greatly pleased with his reception in London and especially with Churchill's hospitality.

The full payment was £15,000,000 for 62 years and France will not be required to pay the deficiency of these 21 years.

Mr. Churchill expressed himself as greatly pleased with his reception in London and especially with Churchill's hospitality.

Britain Rewards German Firm

Commit Wholesale Foreign By Use of Secret Service

While economic sanctions are maintained in an elaborate private detective system to commit wholesale foreign by the German Reichsbank has opened an attempt to procure in some of the British possessions to induce German immigration and encourage trade in quantities of exports, British pound notes.

Requests for such work are said to have been received from Africa and Australia. One man in British West Africa, wrote his firm in Germany, enclosing a pound note and a sample of his own currency, "reproductions." He claimed that the counterfeit notes he supplied were being used by the Germans to turn the letters over to the Reichsbank which notified the Bank of England.

The British Government, through the German embassy, thanked the German firm for the exposure and sent a reward of 10 pounds.

Canada Wins Kolapore Cup

Canadian Marksmen Defeat Picked To Gain Trophy

Canada, for the second consecutive year, won the Kolapore Cup, one of the greatest sporting events in the world. The Canadian team, consisting of 10 marksmen, defeated the British team, 10 to 8, in the final match.

The team selected from Canada's 10 marksmen, including Lord, Desmond Burke, of Ottawa, King, of Toronto, and others.

Japanese Noblemen

The Night's Honorable Viscount

Kelvin Matsudaira, attaché to His Imperial Highness Prince Chichibu, second son of the Emperor of Japan, has just gone across Canada after landing at Quebec on the S.M. Empress of France and from Montreal, Victoria, where he was planning to go to Vancouver where he will call on Yohanna, for a few months vacation with his family.

The Viscount was educated at Balliol College, Oxford, and stated that Prince Chichibu was also entering Oxford this next month and will occupy the rooms at Magdalen College formerly in use by the Prince of Wales.

There are 123 houses in the land and Wales in 1925, the latest statistics show. The population of the land and Wales in 1925, the latest statistics show. The population of the land and Wales in 1925, the latest statistics show.

There is no accurate information about the number of murders executed in England and Wales in 1925, but experience leads to the belief that the rate of executions to crimes was high, for that is the way things are in England.

However, the number of murders executed in New York was 16, or about 1 in 20 of the population.

The Times of June 1925, there were four executions in New York state, and it is not a matter for the shame of the police of New York city rose to 287 for the year.

If we tried swift punishment of murderers in this country as a substitute for dilatory judicial procedure, the abundance of the right of habeas corpus we might get down somewhere near the minimum from crime they enjoy in England—Detroit Free Press.

May-Remain Until September

His Excellency Lord Byng Not Leaving Immediately of Expiration of Term of Office

His Excellency Lord Byng will remain in Canada until the middle of next year, the date of his term expires in August, the date of the governor-general's leaving is at the end of the year.

As Lord Willington has not been seen in England after his trip to China, it is not thought that he can arrange to get out here before the last part of September.

Lord Byng and Lord Willington will average in the coming and following governor-general will meet at Quebec.

No governor-general has ever since he left at the conclusion of his term it is stated at Ottawa. While the period of the appointment is five years, it is not easy to see an official rule that the old governor-general must leave and the new one arrive on the day of his appointment.

It is stated, has nothing to do with Lord Byng's decision to remain here until September.

Served in the War

Mystery Woman of British Near Diplomacy is Dead

Miss Gertrude Bell, "the mystery woman" of British Near East diplomacy, died at 60 years old and a graduate of Oxford University. She was a remarkable woman and had a wide and considerable knowledge of the Near East.

During the world war she was an intelligence agent for the British army in Egypt. Later she served as a political official in Baghdad and was credited with playing an important role in the future of British's post war policy in the Near East.

For every man who is unable to stand properly there are millions who would like to try.

Don't doubt the man who says "everything goes." It usually does.

Search For Lost People

Misling Persons Bureau of New York Police Department Hobbies

A stage magician, before putting on the familiar "disappearing act," would do well to consult his audience of the missing persons bureau of the New York police department.

During the past year this bureau has had to deal with 25,000 real disappearances, far more baffling than those from the magician's trick bag.

When someone "drops out of sight," at the saying is, it would seem to the inexperienced person that all the world must be dragged with a fine net.

Some of the disappearances are so unimportant, and apparently innocent, that it seems to be relative and friends that the lost one must have slipped out of known life altogether.

Some of the disappearances are so unimportant, and apparently innocent, that it seems to be relative and friends that the lost one must have slipped out of known life altogether.

Importance of Newspaper Industry

Huge Volume of Business in First Five Months of Year

Year by year Canada is supplying the world with more and more newspapers, and the importance of the branch of her industrial life is growing again. Newspaper worth \$44,000,000, was shipped out of Canada during the first five months of the current year. In other words, the Dominion manufactured in that period 155,125 tons of newsprint and paper, 155,125 tons of newsprint and paper, 155,125 tons of newsprint and paper.

An abundance of relatively low priced paper and the availability of large tracts of virgin forest contribute to her success in this department of manufacture.

Equal National Status

Urges That Appeals to Privy Council Be Discontinued

Urging discontinuance of carrying legal appeals to the privy council, recommending that, future appointments to the Canadian civil service be made from the ranks of those educated in Canada, health and welfare, two resolutions were passed at the Dominion conference of the Native Sons of Canada held in Vancouver.

It is essential to full recognition of the equal national status of Canada, that this nation should possess and maintain a final court of appeal of its own," the first resolution says.

Gets Plans Of Crow Trap

Will Print Jack Miner's Controversial and Distribute Copies

Plans and specifications of the trap, invented and used with success by Jack Miner, Canadian naturalist, have been furnished by request to the biological survey of the department of agriculture at Washington, D.C. Last winter it is understood that the United States department of agriculture intended to prepare blue prints of the Jack Miner crow trap for free distribution to the United States and Canada.

Island Faces Economic Crisis
Owing to a poor fishing season and small market, Iceland is reported to be facing a serious economic crisis. The islanders are struggling ineffectually to stabilize their currency. It now is feared that the principal cause of the crisis is the fact that the islanders are being forced to rest in the harbor all summer.

Alberta Shows Raising Industry
Sheep raising is becoming an important industry in Alberta and it is estimated that there is a 25 per cent. increase in number this year over last year. The industry is being encouraged by the government, and it is expected that it will be a successful one.

Turkish Traffic Police
Traffic police in Constantinople take extra care in their duty to enforce the law. They wear uniforms and carry a baton of red and white stripes which resemble the stripes of the Turkish flag.

There are said to be nearly 200 cases of leprosy in Paris.

Twenty-six blue-cloth, brass-buttoned, buttoned, Canadian Pacific Railway policemen were on hand to greet Lord Edmund Alington, conqueror of Palestine, when the famous soldier visited Montreal recently. They stood smartly at attention while the British general laid a wreath on the monument to the fallen soldiers in the Windsor Station and acted as his escort after his tribute.

Every one of these constables is a certified St. John Ambulance Association first aid graduate. They are among the best first aid teams in the country.

Since the inauguration of the Canadian Pacific Railway Council of the St. John Ambulance Association over 25,000 employees have been instructed in the art of rendering first aid. This included every branch of the service.

Emphasized on Canadian Pacific Railway trains, more than a hundred and sixty-two employees of the sleeping, dining and parlor cars recently passed the first aid examination prescribed by St. John Ambulance Association. This group of men, women and children, stewards, waiters, porters and others who are employed on C. P. R. trains.

The men who passed the examination studied in their own time and without a shadow of compulsion. They voluntarily underwent a two weeks' course of instruction by one of the Faculty's first aid instructors.

In all, 257 employees took these classes, but a number of these men were engaged on long-run trains and were unable to attend all the classes. They did not present themselves before the medical examiner as they felt they were hardly prepared to pass the searching test.

The knowledge they have gained, however, will stand them in good stead when the next series of classes is held.

The outgoing information came in the form of a memorandum of the headquarters of the Canadian Pacific Railway in Montreal and is striking illustration of the enthusiasm with which first aid instruction is regarded by the railway employees. First aid classes are now being held at Quebec, Three Rivers, Montreal, Ottawa, Hull, and South Falls in Eastern Canada, and are being well attended by employees in all branches of the C. P. R. service.

Mrs. Selthorn, mother of E. H. Selthorn, and his sister, Mrs. Selthorn, are visiting Mr. and Mrs. Selthorn this week.

Hon. Chas. Stewart will be in Medicine Hat on Friday evening and will address the Liberal convention which is being held in the Oddfellows hall. Quite a number from here will attend the convention.

REGARDLESS of the great strike in the British Isles, Windsor Station in Montreal was filled to overflowing with travellers towards old last few days of the first week in May. They were all taking the high train to call on the Canadian Pacific line from Montreal to Quebec. Two special trains were made up carrying first hundred passengers from all parts of Canada.

Revenues of the Prairie Provinces, Alberta, Saskatchewan, Manitoba, last year from all sources is estimated at \$1,000,000,000. Quebec is a huge increase over the sum of \$800,000,000 for the previous year. The returns were derived as follows: agriculture, \$120,000,000; industrial, \$150,000,000; tourism, \$200,000,000; mines, fisheries, etc., \$100,000,000.

Here and There

Eighteen fishery owners from the Maritime Provinces and Quebec recently took a two week course at Halifax in the latest method of preserving dry, and smoked fish at the Dominion Biological Station and at Dalhousie University.

A crowd of citizens and officials gathered at the Canadian Pacific depot at Vancouver recently to welcome the Canadian Pacific special mail train which it pulled in after having completed the journey from Winnipeg in six minutes over the record of thirty-two hours. The journey across Canada from Quebec occupied less than three and a half days.

Regardless of the great strike in the British Isles, Windsor Station in Montreal was filled to overflowing with travellers towards old last few days of the first week in May. They were all taking the high train to call on the Canadian Pacific line from Montreal to Quebec. Two special trains were made up carrying first hundred passengers from all parts of Canada.
